

This is a special edition of International Correspondence containing the Global Policy Theses discussed and voted at the Fourth Congress of the IWU-FI, held in June 2012.

The Policy Theses reflect the point reached in the political development of our international current, the result of discussions with our membership, as well as our intervention in global struggles. We have also added the contribution of the debates opened with other sisters revolutionary organizations.

We present these Theses to the working class, youth and popular militants who want to know our vision of the world situation, our programmatic proposals and on the tasks of revolutionaries.

The changes in the world since the fall of the Berlin Wall in 1989, the crisis of the capitalist-imperialist system and revolutions in North Africa and the Middle East have triggered a series of debates and questions among the world vanguard that with these Theses we want to address.
